

Introduction to Project Management in Life Sciences

- Two-day training on site

18-19 June, 2024

Can you afford to fail another project? Has your project become more complex than you expected?

Life Science startups and companies are based on science and the skill set is primarily in research, but what about your project management skills? Life science projects are known to become very complex very fast.

Take this training in project management to properly upgrade your skills to successfully lead your projects in life science or medical device.

Katarina Lundh, our senior instructor with over 20 years of experience in project management in complex, strategic R&D pharmaceutical and medical device projects, will guide you through two comprehensive days.

Day 1

- Project and organization
- Project leader/manager – role and competence
- Stage gate process, decision points, project phases
- Planning and Governance, the role of key stakeholders
- Risk management and quality assurance

Day 2

- The People: Culture, Climate, Project Team and the Leader
- Communication, meetings and conflict management
- Tools and checklists
- Case study
- What makes winners
- How AI will transform project management – a future outlook

Dates: 18-19 June, 2024

Venue: The Spark building, Medicon Village, Scheeletorget 1, Lund

Participation fee for 2 days including lunch, material, diploma: 7800 SEK + VAT.

Please register [here](https://bit.ly/pmlifescience2406) (https://bit.ly/pmlifescience2406) before 31 May. Note: limited seats!

Katarina Lundh is an executive and forward leaning leader with 30+ years in life science industry, with a solid background in consumer driven product innovation and project management. She spent 23 years with Johnson & Johnson as Global R&D Director with an end-to-end global R&D responsibility for Digestive Healthcare with brands like Imodium, Pepsid and Microlax. Prior to that Katarina was head of the global Project Management Office with groups of PMs in both Sweden and US. An especially dramatic project got Katarina nominated in 2005 to the 'Project Leader of the Year Award', by Swedish Project Academy.
