

## Project Management in Life Sciences

- Two-day training on Medicion Village

1-2 April, 2025

**A collaboration between MVIC and Katarina Lundh**

### Is Your Life Science Project at Risk?

Life science projects are complex. Whether you're developing pharmaceuticals or medical devices, your expertise is research—but are your project management skills keeping up?

In just two days, gain the skills to lead successful, efficient projects.

Led by **Katarina Lundh**, an expert with 20+ years in R&D project management, this training provides **practical tools** tailored for life sciences. Discover how **AI** can future-proof your approach.

**Sharpen your skills. Secure your success.**

#### Day 1

- Project organization
- Project leader role and competence
- Stage gate process
- Planning and Governance
- Role of Key stakeholders
- Risk management

#### Day 2

- The People: Project Team and the Leader
- Communication, meetings and conflict management
- Tools and checklists
- Case study
- What makes winners
- How AI will transform project management – a future outlook
